## Summary of Record of Interview Requirements

### Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

#### Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

#### 37 CFR §1.2 Business to be transacted in writing.

All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,  
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

#### Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

What follows is a timeline of events that have occurred during prosecution of the present application, as best understood by SPE Doug Hutton:

- On 08/08/2008, Applicant called Examiner Quoc Tran to say that the 103 rejection of Claim 15 in the Non-Final Rejection dated 06/09/2008 included an error at the bottom of Page 5, because the examiner's explanation regarding how Chin taught the recited claim limitations mentioned section numbers, page numbers, words and phrases that Applicant could not locate in Chin.
- During the conversation between Applicant and Examiner Tran on 08/08/2008:
  - Applicant mentioned that an immediate second-action Non-Final Rejection was necessary to correct the alleged error.
  - Examiner Tran disagreed with Applicant's position.
  - Examiner Tran offered to grant an interview to Applicant for the purpose of discussing the present application, and Applicant declined the offer.
- On 10/09/2008, Applicant called Examiner Tran, SPE Hutton and Director Don Sparks to again allege the same error. This was the first time Applicant contacted the Office regarding the alleged error since the initial conversation with the examiner on 08/08/2008.
- During these conversations on 10/09/2008, Applicant stated that a response to the Non-Final Rejection dated 06/09/2008 would be filed on 10/09/2008.

Based upon an investigation of the prosecution of the present application, a review of the relevant rules under 37 CFR, and a review of USPTO policy as set forth in the Manual of Patent Examination Policy, the findings of the USPTO follow:

- On 08/08/2008, Applicant initially brought the alleged error to the attention of the Office within the period for reply set in the Office Action but more than one month after the date of the Office Action. Accordingly, the Office cannot restart the previously set period for reply to run from the date the error is corrected.
- The examiner's explanation regarding how Chin taught the recited claim limitations mentioned section numbers and page numbers of the provisional application (i.e., US Application Serial No. 60/193,937), to which US Patent Application No. US 2001/0029455 A1 claims priority, rather than mentioning page numbers and paragraph numbers of US Patent Application No. US 2001/0029455 A1, on which the 103 rejection for Claim 15 is based. However, the textual rationale provided in the explanation refers to subject matter disclosed in US Patent Application No. US 2001/0029455 A1 (see Figures 6, 10a and 10b, and the text associated with these figures).
- If Applicant submits a response to the Non-Final Rejection dated 06/09/2008, then the Office agrees to make the next Office Action "Non-Final."
